

Return Instructions

Before proceeding with the return process, please make sure to return your vehicle on the correct date. As the driver you are responsible for sending Arval a filled return form to endofcontract.se@arval.se. The leasing will continue until Arval has received this form with all the information filled.

If you have a new vehicle delivered at a dealership, you can choose to leave your previous vehicle there or you can contact Arval and we will assist you with transportation. Please make sure the vehicle has enough fuel to be handled at the return. We recommend at least 60 km in the fuel tank.

Checklist for the return:

All optional extras that has been included and delivered with the car such as:

- All keys (including keys for the tow bar)
- Detachable tow bar
- Summer- and winter tires (if included)
- Lock bolts
- Service book
- Manual
- Roof box
- Roof rack
- Charging cables
- Etc.

Please insure that you empty the vehicle of all personal belongings and equipment that belong to you– Please make sure to erase all stored information such as telephone numbers, addresses in Gps etc

When the vehicle has been returned we will terminate your present fuel cards. If you have a new vehicle on order, new fuel cards will be arranged for you by post.

Kind Regards,

End of Contract

Arval AB
